# Offshore banking services for privacy and asset protection

Offshore banking services and structures are no different than any conventional banks you deal with. Offshore banking offers the same savings and checking accounts for you to have access and control your money at your convenience.

The benefits of offshore banking that you do not have with local banking systems is that you control and operate in privacy. What you do with your money and how much you accumulate is not reported for tax purposes, allowing you to accumulate profits without being taxed on the growth. You may access funds with and offshore credit card from ATM systems anywhere in the world with complete privacy and anonymity.

Establishing offshore trusts allow you to take personal assets and have privacy options that will give you considerable savings on capital gains and inheritance taxes. You can transfer an asset without having to pay the normal tax charges by completing a simple document of ownership change. If all your assets are structured correctly in an offshore trust there will be no taxes charged to your beneficiaries at the time of your death.

With the high rate of liens and lawsuits today it is clearly advantageous to have offshore banking and trusts to protect your assets. This gives you complete control without any threat of a lawsuit affected or putting claim to any asset properly structured offshore, outside the jurisdiction of your country.

Whether you live in Alabama, Alaska, Arkansas, California, Colorado, Connecticut, Delaware, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvannia, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, Washington, West Virginia, Wisconsin, Wyoming or another coutry besides the USA you can take full advantage of offshore structuring, privacy and asset protection strategies.
