We believe that we offer the quickest service and the most competitive fees, with no hidden extras.

We shall be pleased to be of service and look forward to hearing from you.

OFFSHORE BANKING LICENCE

Have you ever thought of the possibilities associated with **owning your very own bank?**

You will find that **operating your own International offshore bank can open new doors to ways of doing business. It is the ideal way of launching a tax-free financial institution** capable of taking deposits from the public, make loans, conduct stock brokerage, mortgage, savings, CDs, foreign exchange, and credit card services.

Your bank can expand globally by opening branch offices in many different countries. This vehicle is the perfect platform for investors wishing to establish himself as a major player. It can help by giving you a competitive edge by serving as a secure instrument for sheltering assets offshore, substantially enhance your company's profits, and **reduce taxes**, bank charges and interest.

All Jurisdictions whether offshore or onshore have some form of legal framework to grant banking licence and thereafter the operation of banking business to qualified applicants. In general, onshore jurisdiction have much stricter requirements which in turn leads to higher setup costs for those applicants wishing to obtain a bank licence. What one should consider when choosing a location for incorporation of a bank, is the initial cost for both the application and setting up of banking facilities.

As you will see offshore **jurisdictions have greater advantages over its onshore rivals.** These can be summarised as follows: **Allowing the bank to operate tax-free with no charges on profits.** Enabling them of pass the saving on to the clients. Tax is deducted at source on interest payments to the clients. In some of the more popular jurisdiction a bank can be maintained without the physical presence other than the Service Company within the jurisdiction of incorporation.

Incorporating your own bank will give rise to a number of possibilities. For instances, you may

create your own banking instruments such as bonds, securities, etc., providing the necessary deposits are made, you can issue letters of credit for yourself, certificates of deposit, letters of recommendation and such likes. As well as boosting your corporate image you are able to issue your own bank references for yourself and others for a fee, grant yourself constructive credit ratings or seize your own assets before the creditors do. You can also grant your own loans and mortgages, an excellent way of legally moving your profits offshore and reducing the tax consequences.

An offshore bank is probably the most powerful business tool that money can buy.

IMPORTANT OBSERVATION

Dear visitor:

Our business is based on trust.

If you wish to receive our confidential Service information (not available for the general public), and further details on available Licensed Banks & Financial Companies for immediate purchase and delivery, please provide us with:

- * Your name;*

[ONLINE INFORMATION REQUEST
FORM](#)

Because of the private and confidential nature of our business, we prefer our clients to use encrypted e-mail. We use and recommend PGP/GnuPG.
Our PGP Public Keys

GSG

We also use and recommend HushMail. To learn more about HushMail and empower your rights to privacy please click the banner and get a free email account.

HushMail, the most secure Web-based e-mail on Earth.

A number of our clients don't use encryption software such as PGP/GnuPG but prefer to communicate with us through more secure and anonymous channels than provided by conventional email. If you prefer this level of privacy, we suggest that you setup a free email account at HushMail.com.

Via Hushmail, we will only respond to fully encrypted messages (any HushMail originating from another HushMail account) and where the full name and address - including telephone and fax numbers - of the sender are given, as well as properly formulated questions.

Hushmail works like most other web-based e-mail, and you can send messages from your Hushmail account to any other e-mail address. However, messages to non-Hushmail accounts are NOT encrypted. To use Hushmail's encryption function both the sender and the recipient of the e-mail must be using Hushmail.

Get a free email account with the world's first 2048-bit OpenPGP fully encrypted web based free email service HushMail. Access your secure e-mail account from anywhere in the world. Send and receive encrypted email. Speak Freely and keep your communications private.

If you intend to conduct confidential business with associates via e-mail, we suggest you use only PGP/GnuPG, Hushmail or click here to encrypt your e-mail messages with our free web based service.

OFFSHORE WARNING!

The Global Solutions Group no longer recommend offshore company incorporations or offshore banks & accounts in:

1. Anguilla, Bahamas, Bermuda, BVI, Cayman Islands, Montserrat and

Turks & Caicos;

2. or the Isle of Man and the British Channel Islands: Jersey, Guernsey, Alderney, and Sark;

3. Switzerland and Luxembourg;

These traditional jurisdictions are no longer suitable for asset protection, privacy and confidentiality because of current and/or impending British and EU and/or international legislation. We strongly recommend that clients with offshore structures and bank accounts in these jurisdictions, redomicile to suitable independent sovereign countries. Countries like: Antigua, Vanuatu, Nauru, Liechtenstein, Dominica and Panama etc., fit these specifications.
